COTEL "CONNECT" HANDHELD LTE RADIO

LTE Transceiver

LTE (4G) and 3G

- | **Push-to-Talk Instant Communications**
- | **Wide Area Coverage over LTE (4G) and 3G Network**
- | **Talk and Listen Simultaneously: Full-Duplex Conversation**
- | **High-Quality Audio through Powerful 900 mW Speaker**

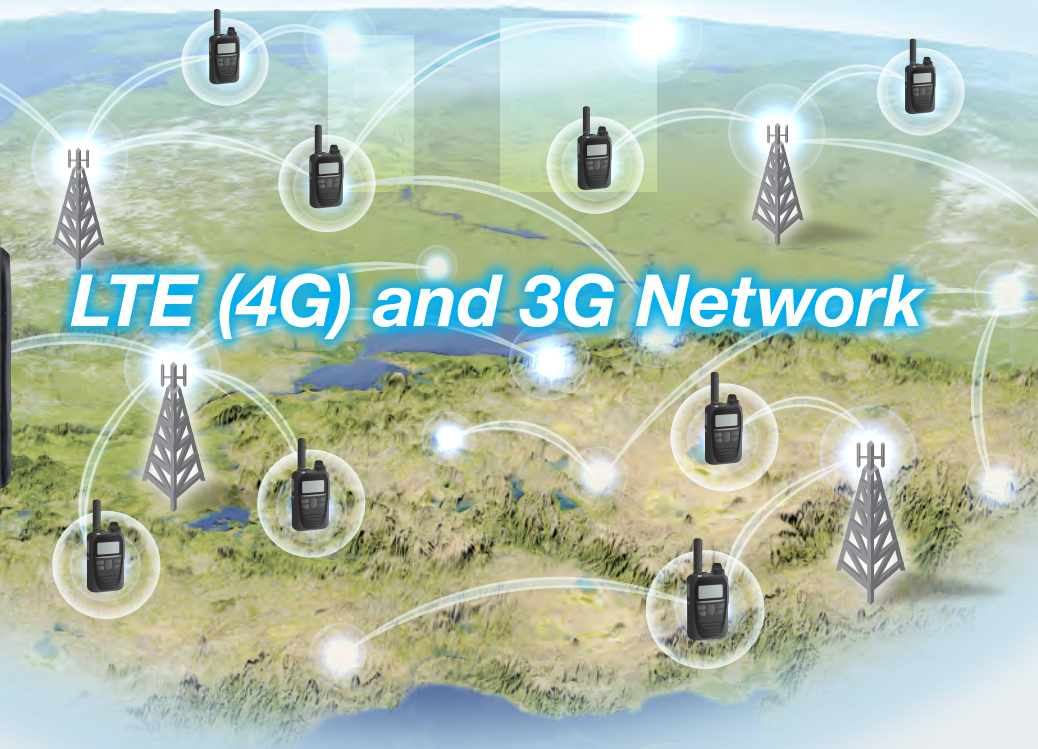

Instant Wide Area Coverage Over a LTE (4G) and 3G Network

Cotel "Connect" provides wide area communication using an LTE (4G) and 3G network and instantaneous communication. Individual calls, Group calls or All calls can be made the same way as a conventional two-way radio.

Actual Size

IP ADVANCED RADIO SYSTEM
Cotel "Connect"

Communication throughout the Coverage of LTE (4G) and 3G Network

Using an existing LTE (4G) and 3G network, Cotel "Connect" is able to provide a network with wide area coverage capabilities. "Connect" does not require its own repeaters or IP network which reduces the cost of building and maintaining a wide area radio network.

* Network coverage provided by custom Cotel SIM card.

Railways

Security

Event Management

Full-Duplex Communication

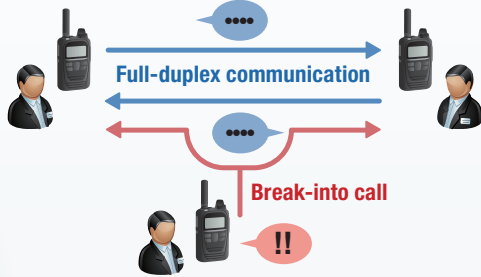

Cotel "Connect" enables use of full-duplex communication which provides smooth telephone style conversations. All "Connect" users can talk and receive at the same time.

Multiple User Communication

Multiple users in the call groups can initiate calls instantaneously. Removing the need to wait for available channels to communicate.

Priority Interrupt Calling

Cotel "Connect" supports group calls with three or more people. In case of an emergency, you can break into an on-going call to transmit an important message.

Industry Leading Compact and Lightweight Body

Compact 59 x 95 x 32 mm; 2.3 x 3.7 x 1.3 in and 240 g; 8.5 oz (approximate) lightweight body* allows non-intrusive mobility and use.

* With BP-272 battery pack and antenna. Projections are not included.

IP67 Dust-Tight and Waterproof

The Cotel "Connect" has been designed to preserve its waterproof integrity in water of a depth of 1 meter for 30 minutes. It can be used for outdoor work or places prone to get wet.

Optional Charger Cradle with Bluetooth® Function

When the optional Bluetooth charger cradle and speaker-microphone are used, calls can be made with the microphone while charging the hand unit. Even when the radio is not dropped into the charger, the Bluetooth® function enables you to wirelessly use the speaker-microphone.

Powerful and Clear Audio

The powerful 900mW speaker provides high-quality and clear audio, even in noisy environments.

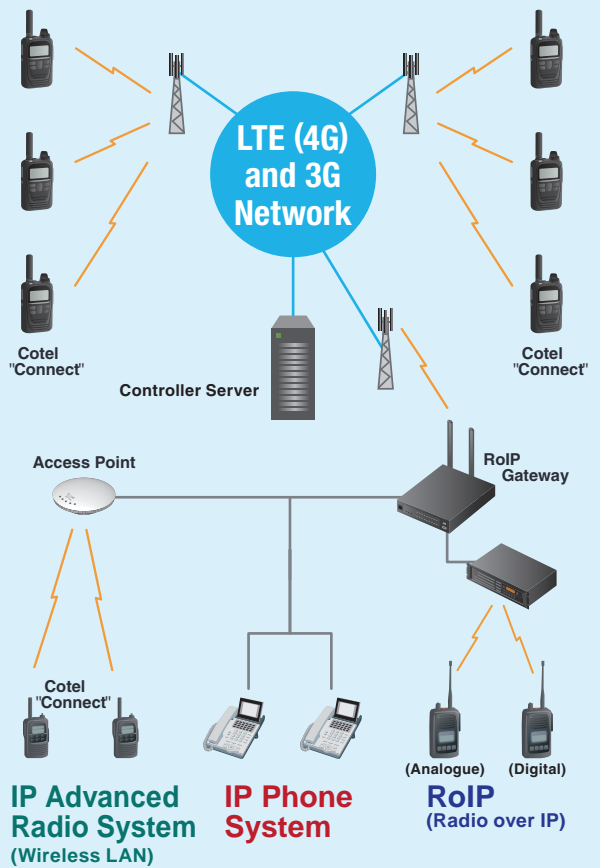

Other Features

- Individual, Group, Talkgroup, Multiplex Talkgroup and All calls
- Emergency button, Lone Worker and Man Down functions
- Vibration alert function notifies of incoming call
- Up to 500 memory address book (including Group, Individual, Talkgroup and Telephone lists)
- Voice message recording
- Built-in Bluetooth® and GPS

RoIP Gateway

With a RoIP Gateway, the Cotel "Connect" can provide interoperability with an IP phone, analogue transceiver, IDAS™ digital transceiver and "Connect" wireless LAN network systems.
